

**REACH
Registration, Evaluation, Authorization and Restriction of substances and
prepared chemicals****January 2017**

In fulfillment with the Regulation "REACH" n^o 1907/2006/CE, we inform that ESPA2025, S.L. does not make products, substances or prepared chemicals; but products that are considered articles in the regulation REACH. None of these articles is designed to liberate some substance. For this motive ESPA2025, S.L. must not take part in the record of substances needed by the mentioned Regulation REACH, relative to the record, the evaluation, the authorization and the restriction of the substances and prepared chemicals.

Based on the information provided by our suppliers of raw material and on the own knowledge of these materials, ESPA2025, S.L. consider that all our products fulfil with the Regulation REACH.

In his articles ESPA2025, S.L. does not use any substance typified as Substance of Very High Concern (SVHC) included in the Candidate List (updated 12/01/2017), in proportion upper to the one that delimits the proper regulation REACH (0.1 % p/p).

Also, ESPA2025 declare that in his articles there does not use any substance typified as Substance of Very High Concern (SVHC) included in Authorisation List (Annex XIV).

Specifically, ESPA2025, S.L. does not use any of the substances mentioned previously in any of the articles that makes
